

Use these summary tables to provide your local education community with a detailed overview of your Health and Safety Plan. LEAs are required to post this summary on their website. To complete the summary, copy and paste the domain summaries from the Health and Safety Plan tables above.

## **Facilities Cleaning, Sanitizing, Disinfecting and Ventilation**

### **Requirement(s)**

Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)

### **Strategies, Policies and Procedures**

Souderton Vantage Academy buildings will be cleaned, sanitized, disinfected, and ventilated each day. High touch areas will be disinfected daily with an electrostatic sprayer. Classroom windows will stay open as feasible during the day. OSHA and CDC protocols will be followed, and approved disinfectants used. Staff and students will have access to disinfectants in each classroom. Signs will encourage frequent use of disinfectants. Custodial staff, van drivers, teachers, will be trained on cleaning, sanitizing, disinfecting, and ventilations protocols appropriate to role. Supervisor of Custodial Services will train and supervise custodial staff. Vice President of Facility Management will train the transportation staff on disinfecting vans and classroom teachers in the proper protocol for cleaning staff and student areas. Director of Technology will train staff on disinfection of computers, Chromebooks, and other IT devices.

## **Social Distancing and Other Safety Protocols**

### **Requirement(s)**

Classroom/learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible

Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms

Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices

Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs

Handling sporting activities consistent with the CDC Considerations for Youth Sports for recess and physical education classes

### **Strategies, Policies and Procedures**

Classrooms will be kept at half capacity to allow for social distancing. Students will be kept in cohorts to limit unnecessary exposure to other students during the school day. Staff will be required to wear masks at all times except when alone in their classroom. Students will be required to wear masks at all times during the school day. Students will be allowed to take mask breaks for periods of no more than 10 minutes when socially distanced by 6 feet or more. All lunches will be eaten in class. Staff are encouraged to use the outdoor spaces of the campus and keep windows and doors open as weather and practical concerns permit. The fields, walking track, swings, pagoda and other spaces may be used as long as social distance and disinfection protocols are observed. Staff and students will be encouraged to disinfect and wash frequently during the school day. Students riding a Lakeside van will be required to wear a mask. Visitors and volunteers will only have remote contact with students. All staff and students will observe the protocols outlined

## Social Distancing and Other Safety Protocols, cont.

### Requirement(s)

- Limiting the sharing of materials among students
- Staggering the use of communal spaces and hallways
- Adjusting transportation schedules and practices to create social distance between students
- Limiting the number of individuals in classrooms and other learning spaces, and interactions between groups of students
- Coordinating with local childcare regarding on site care, transportation protocol changes and, when possible, revised hours of operation or modified school-year calendars
- Other social distancing and safety practices

in this document. All staff and students will be trained on social distancing and healthy hygiene protocol before the first day of on-site schooling. Training will include preventative measures that should be implemented at home as well as instructions on protocol at school.

## Monitoring Student and Staff Health

### Requirement(s)

- Monitoring students and staff for symptoms and history of exposure
- Isolating or quarantining students, staff, or visitors if they become sick or demonstrate a history of exposure
- Returning isolated or quarantined staff, students, or visitors to school
- Notifying staff, families, and the public of school closures and within-school- year changes in safety protocols

### Strategies, Policies and Procedures

Staff, parents and students will be trained on social distancing and healthy hygiene protocol before or on the first day of on-site schooling. Training will include preventative measures that should be implemented at home as well as instructions on protocol at school. Before boarding a Lakeside van or entering the building, every student will be asked daily to complete a questionnaire and have their temperature taken to screen for Co-Vid symptoms and exposure. A staff member or student who is ill or who needs to isolate, or quarantine may only participate in school as a Remote-Learning participant. They may not return to campus until cleared by a physician and given permission by an SVA CoVid Team member. Students who are uncomfortable participating in On-Site Learning may participate as a Remote-Learning participant. The SVA CoVid Team will regularly communicate and monitor developments with local authorities, employees, and families regarding cases, exposures, and updates to policies and procedures. Should a staff member or student become ill or become exposed, a member of the SVA CoVid Team will contact each staff member and student as per Montgomery County guidelines, particularly should there be a revision of this plan.

## Other Considerations for Students and Staff

### Requirement(s)

Protecting students and staff at higher risk for severe illness

Use of face coverings (masks or face shields) by all staff

Use of face coverings (masks or face shields) by older students (as appropriate)

Unique safety protocols for students with complex needs or other vulnerable individuals

Strategic deployment of staff

### Strategies, Policies and Procedures

Students will be required to wear a face covering while in school at all times except when eating breakfast/lunch or taking a mask break of no more than 10 minutes while socially distancing at least 6 feet from peers. Staff will be required to wear a face covering at all times when in the presence of students and/or in communal spaces. Staff and students that are at higher risk for severe illness will be provided options to attend school as a Remote-Learning Instruction participant and will not be expected to attend as an On-Site participant. SVA has enough staff to cover on-site subbing needs as long as staff absences do not exceed 16% (i.e. no more than 4 staff at one time). Counseling and special education supports will be provided to each student that participates in school whether on-site or remotely.

## Health and Safety Plan Governing Body Affirmation

The Board of Directors/Trustees for **Lakeside Youth Service** reviewed and approved the Phased School Reopening Health and Safety Plan on **August 24, 2020**.

The plan was approved by a vote of:

**Yes**

No

Affirmed on: **August 24, 2020**
